Memorandum to accompany the Annual Administration Report of J.M. Todd Esqre 1st Assistant Collector for 1879/80.

Mr J.M. Todd has been in charge of the Talukas of Honawar, Ankola and Sidapur since December 1878, and of the Taluka of Koompta since August 1879. Mr. Todd visited the greatest part of his charge, but was detained at Karwar for most of the time that I was at Goa. This was necessary in order that the Current and emergent duties of my office might be disposed of promptly. I could only take a small part of my establishment to Goa from which place I

No 2332 of

Karwar 23d July 1880.

Memorandum to accompany the Annual Administration Report of J.N. Todd Esqre 1st Assistant Collector for 1879/80

Mr. J.N. Todd has been in charge of the Talukas of Honawar, Kirsi and Sidapur since December 1878, and of the Taluka of Koompta since August 1879. Mr. Todd visited the greatest part of his charge, but was detained at Karwar for most of the time that I was at Goa. This was necessary in order that the current and emergent duties of my office might be disposed of promptly. I could only take a small part of my establishment to Goa from which place I

Communicated by post and telegraph with Mr. Todd. As far as was possible under these Circumstances Mr Todd moved actively about and carried out the orders of Government regarding the Jamabandy Settlement and the inspection of accounts. He was also present with the Survey Commissioner at the introduction of the revised rates of assessment into the villages of the Koompta and Sirsi Talukas, which were sanctioned this year by Govern- ment.

7. Para: 6- Remissions- Under this head the enhanced assessment held in abeyance for the first two years after the introduction of the Settlement has been included. This is not an ordinary remission, but it is a Concession.

Concession to the occupants that they will only be called on to pay the full amount of the assessment gradually.

3. Para: 9. Outstanding balances. The figures given for Koompta are erroneous. The real balance on 1st July was Rs. 1748. 0. 6. Some amount which is not to be collected, on account of the Concessions above referred to, has been added by mistake.

4. Para: 11. Waste land - Cultivation has fallen off in the part of the District indicated owing both to sickness and to the floods of the Barda river. With an increase of population which more favourable seasons may bring about, I hope that the waste land may be taken up. This part of the Country suffered from

4. Para: 11. Waste land - Cultivation has fallen off in the part of the District indicated owing both to sickness and to the floods of the Narda rivers. With an increase of population which more favourable seasons may bring about, I hope that the waste land may be taken up. This part of the Country suffered

from the light rainfall of 1876, and
1877. The people are closely connected
with their neighbours in
Mysore, and the latter will probably
take up some of this land. I am
not very sanguine as to the effect
of the new road which Mr. Todd
has mentioned as far as the Culti-
vation of this tract of land is
concerned. The road will be commenced
I hope very soon. I concur with
Mr. Todd that there is no occasion
for interfering with the assessment
imposed at the Survey Settlement
in 1870. The Gazni or Salt marsh
land will I hope be all taken up
eventually. I have given detailed
instructions as to the terms on
which each number may be leased.

5. Para. 12- The account at

Honawar

Nowsawar were not so well kept as they might have been. The Head Karkun, who was old and infirm, has since retired on a pension. The Mamlatdar, though he might have paid more attention, had a great deal of extra work on his hands, owing to the presence in his Taluka of Measuring and Classing Establishments of the Revenue Survey Department under two Assistant Superintendents. In this District such a Circumstance must always be considered when judging of a Mamlatdars work.

Para: 14. Efficiency of village officers. These men are all stipendiary. They belong generally to and dread the great villages the exact villages, almost as much as foreigners do. I have now had several years' experience of them

from the light rainfall of 1876 and 1877. The people are closely connected with their Neighbours in Mysore, and the latter will probably take up some of this land. I am not very sanguine as to the effect of the new road which Mr Todd has mentioned as far as the Cultivation of this tract of land is concerned. The road will be Commenced I hope very soon. I concur with Mr Todd that there is no occasion for interfering with the assessment imposed at the Survey Settlement in 1870. The Garua or Salt marsh land will I hope be all taken up eventually. I have given detailed instructions as to the terms on which each number may be leased.

5. Para 12 The accounts at

Honawar

Nowadar were not so well kept as they might have been. The Head Karkun who was old and infirm, has since retired on a pension. The Mamlatdar though he might have paid more attention had a great deal of extra work on his hands, owing to the presence in his Taluka of measuring and classing Establishments of the Revenue Survey Department under two Assistant Superintendents. In this District such a Circumstance must always be considered when judging of a Mamlatdars work.

6. Para: 14. Efficiency of Village Officers - These men are all Stipendiary. They belong generally to Coast villages, and dread the Forest villages almost as much as foreigners do. I have now had several years' experience of them

from the light rainfall of 1876 and 1877. The people are closely connected with ~~on~~ their Neighbours in Mysore, and the latter will probably take up some of this land. I am not very sanguine as to the effect of the new road which Mr Todd has mentioned as far as the Cultivation of this tract of land is concerned. The road will be commenced I hope very soon. I concur with Mr Todd that there is no occasion for interfering with the assessment imposed at the Survey Settlement in 1870. The Gazni or Salt marsh land will I hope be all taken up eventually. I have given detailed instructions as to the terms on which each number may be leased.

5. Para. 12. The accounts of

Honawar.

Honawar were not so well kept as they might have been. The Head Karkun, who was old and infirm, has since retired on a pension. The Mamlatdar, though he might have paid more attention, had a great deal of extra work on his hands, owing to the presence in his Taluka of Measuring and Classing Establishments of the Revenue Survey Department under two Assistant Superintendents. In this District such a Circumstance must always be considered when judging of a Mamlatdars work.

6. Para: 14. Efficiency of Village Officers - These men are all Stipendiary. They belong generally to Coast villages, and dread the Forest villages almost as much as foreigners do. I have now had several years' experience of them,

and think that I see a considerable improvement in their work. Wherever their Charges have been revised, and they have been Strictly Controlled by the Mamlatdars, the work done is fair. But until they become thoroughly accustomed to their new duties, they will not stand a very favourable Comparison with the old hereditary officers of other Districts.

7. Para 16 - Licence Tax - In Sholapur a large number of alterations in the assessments is shewn. I found that in the lower classes many persons were included whose income was below the minimum fixed. The original list had not been

been prepared so carefully as it ought to have been.

8. Para: 20- Magistrates - One Second class Magistrate has had his decisions much altered on Appeal. He will be warned to be more careful.

9. Para: 27- Charge of Local Funds' works - Mr. Todd expresses himself very strongly regarding the agency to be employed. I partly concur with him, but there are several things to be considered. If we could always secure good Supervision by Mamlatdars, they could undertake the charge of roads, but I fear that already they have as much as they can do. The Public Works Agency is expensive and rather dilatory

and think that I see a Considerable improvement in their work. Wherever their Charges have been revised, and they have been Strictly Controlled by the Mamlatdars, the work done is fair. But until they become thoroughly accustomed to their new duties, they will not stand a very favourable Comparison with the old hereditary Officers of other Districts.

7. Para 16 - Licence Tax - In Sukkur a large number of alterations in the assessments is shewn. I found that in the lower classes many persons were included whose income was below the minimum fixed. The original list had not been

been prepared so carefully as it ought to have been.

8. Para: 20- Magistrates - One Second Class Magistrate has had his decisions much altered on Appeal. He will be warned to be more careful.

9. Para: 27- Charge of Local Funds' works- Mr Todd expresses himself very strongly regarding the agency to be employed. I partly concur with him, but there are several things to be considered. If we could always secure good Supervision by Mamlatdars, they could undertake the charge of roads, but I fear that already they have as much as they can do. The Public Works Agency is expensive and rather dilatory.

But until they become thoroughly accustomed to their new duties, they will not stand a very favourable Comparison with the old hereditary Officers of other Districts.

7. Para 16 - License Tax - In Ankola a large number of alterations in the Assessments is shewn. I found that in the lower classes many persons were included whose income was below the minimum fixed. The original list had not been

been prepared so Carefully as it ought to have been.

8. Para: 20- Magistrates - One Second Class Magistrate has had his decisions much altered on Appeal. He will be warned to be more Careful.

9. Para: 27- Charge of Local Funds' works- Mr. Todd expresses himself very Strongly regarding the agency to be employed. I partly Concur with him, but there are Several things to be Considered. If we Could always Secure good Supervision by Mamlatdars, they Could undertake the Charge of Roads, but I fear that already they have as much as they Can do. The Public Works Agency is expensive and rather dilatory. But

But the repairs of long lines of road under an Executive Engineer who is active and knows his District ought to be promptly and efficiently executed. It would hardly do to leave all these works to the Mamlatdars.

10 Para: 28- Municipalities- The road at Koompta has been very well made under Assistant Surgeon Mackenzie's Supervision. To Complete the work an extension with a small pier at the Sea end is necessary. And if the Goa railway is Constructed, in order to encourage the trade of the port of Koompta, some such expenditure by Government will be necessary.

11. I have much pleasure in Concluding these remarks to express my great satisfaction with the manner in which Mr. Todd has Conducted his duties. He has exercised a sound judgment in all matters which have Come before him, and has fully maintained his previous reputation as a valuable Officer of Government.

Total	3	150	67	37056-2-3	5	673--	75	37879-2-3

The farm of each shop for the sale of Country spirits and toddy and ganja & charas is sold separately and the right to manufacture and sell spirits goes with that of selling toddy. The sums obtained at the public auctions are shown above and are a decrease of Rs 1640-13-4 on last year.

9 The marginal table gives the state on the 1st of the collection of

H.

Rs 3956-7-6 as per margin. The causes of this increase are given in detail in

Talukas	More	Less	Increase
Kanara	276-2-3	421-15-2	
Supa	1174-10-5	662-14-0	
Yellapur	3814-4-0	224-6-0	
Total	5265-0-8	1308-9-2	3956-7-6

Appendix II and are almost entirely the increase of the Survey Assessment over the old Assessment

6. Remissions amounting in all to Rs 6211-8-0 have been granted as detailed in Appendix III. They were almost all objections owing to the introduction of the Survey Settlement in 23 villages or parts of villages in Supa Taluka, and into nine villages and parts of a tenth village in Yellapur. The excess, Rs 5863-11-0, of the Survey Assessment over the old Assessment was not collected

7. No Takavi advances have been given.

8. The abkari revenue of these districts has hitherto been managed on the farming system except in the case of Europe spirits to sell which a license is given.

Taluks	Europe spirits		Country spirits and toddy		Ganja & bhang		Total	
	shops	amount	shops	amount	shops	amount	shops	amount

Acting Second Assistant Collector

No 2334 of 1880.

Karwar 23rd July 1880.

Memorandum to accompany the Annual Administration Report for 1879/80 of —
E. McCallum Esqre 2nd Assistant Collector.

Mr E. McCallum has been in charge of the Karwar and Supa Talukas since May 1878, and of the Yelapur Taluka since August 1879. He has visited all parts of his charge during the year, and has carried out the orders of Government as to the Jamabandy Settlement and the inspection of the accounts thoroughly. Near the close of the year it was necessary for him to remain near Karwar for the trial of some heavy Criminal Cases the prisoners in which it was not advisable to take out into the District. Mr McCallum has also suffered from fever which delayed his completion of the Yelapur Jamabandy a few days after the 15th March, and also prevented his doing so much general inspection

as he otherwise might have done. This of Course could not be helped.

2. Para: 6- Remissions- The amount shewn is on account of the Concession made by Government. The enhanced assessment is only gradually Collected.

3. Para: 9- Balance outstanding- The entry for Karwar is incorrect. This table refers wholly to the Current year, and no item of former years should be included though it can be separately mentioned. The proper amount is Rs. 300. 6-8.

4. Para: 11- After the excitement and Confusion caused by the opposition to Government and the Collection of large arrears have passed away, this waste land will be taken up- The old landowners in many Cases throw up some of their lands when they find that they must pay assessment on all they hold. This gives a Chance to other men with a little Capital to purchase and hold directly from Government.

5. Para: 24 - Inspection of works - The Members of the Committees rarely inspect works - There are some notable exceptions. It is difficult to get men who have local influence, and also are active in the performance of such duties.

6. Para: 27 - Kyga Ghat road - This is as Mr. McCallum says a very important work. Much remains to be done as it must eventually be brought to Kamrar.

7. Para: 28 - Municipalities - All the available funds of the Haligal Municipality must be devoted to the completion of the improvement of the Bargeri Sank. Dr. Beatty the Surgeon General considers that this Sank now affects the health of the town most unfavourably.

8. Para: 29 - Dispensaries - balances. These balances must now be struck off, as they have been absorbed in general funds except where there is a Municipality which keeps a

as he otherwise might have done. This of Course could not be helped.

2. Para: 6- Remissions- The amount shewn is on account of the Concessions made by Government. The enhanced assessment is only gradually Collected.

3. Para: 9- Balance outstanding- The entry for Karwar is incorrect. This table refers wholly to the Current year, and no item of former years should be included, though it can be separately mentioned. The proper amount is Rs 300. 6-8.

4. Para: 11- After the excitement and Confusion caused by the opposition to Government and the Collection of large arrears have passed away, this waste land will be taken up- The old landowners in many Cases throw up some of their lands when they find that they must pay assessment on all they hold. This gives a Chance to other men with a little Capital to purchase and hold directly from Government.

5. Para: 24- Inspection of works- The Members of the Committees rarely inspect works- There are some notable exceptions. It is difficult to get men who have local influence and also are active in the performance of such duties.

6. Para: 27- Kyga Ghat road- This is as Mr. McCallum says a very important work. Much remains to be done as it must eventually be brought to Kanwar.

7. Para: 28- Municipalities- All the available funds of the Kalyan Municipality must be devoted to the completion of the improvement of the Dirgeri Tank. Dr. Beatty the Surgeon General considers that this Tank now affects the health of the town most unfavourably.

8. Para: 29- Dispensaries- balances- These balances must now be struck off, as they have been absorbed in general funds except where there is a Municipality which keeps it

Sel-

as he otherwise might have done. This of Course could not be helped.

2. Para: 6- Remissions- The amount shewn is on account of the Concessions made by Government. The enhanced assessment is only gradually collected.

3. Para: 9- Balance outstanding- The entry for Kannan is incorrect. This table refers wholly to the Current year, and no item of former years should be included, though it can be separately mentioned. The proper amount is Rs 300. 6. 8.

4. Para: 11- After the excitement and confusion caused by the opposition to Government and the Collection of large arrears have passed away, this waste land will be taken up- The old landowners in many cases throw up some of their lands when they find that they must pay assessment on all they hold. This gives a chance to other men with a little Capital to purchase and hold directly from Government.

5. Para: 24 - Inspection of works - The Members of the Committees rarely inspect works - There are some notable exceptions It is difficult to get men who have local influence and also are active in the performance of such duties.

6. Para: 27 - Kyga Ghat road - This is as Mr. McCallum says a very important work. Much remains to be done as it must eventually be brought to Karwar.

7. Para: 28 - Municipalities - All the available funds of the Haliyal Municipality must be devoted to the completion of the improvement of the Dirgeri Jauk. Dr. Beatty the Surgeon General considers that this Jauk now affects the health of the town most unfavourably.

8. Para: 29 - Dispensaries - balance These balances must now be struck off, as they have been absorbed in general funds except where there is a Municipality which keeps a

separate account. The balances sometimes occur from the bills for medicines not being paid during the year as the medicines are not always promptly supplied, nor the bills immediately rendered.

9. I am glad in concluding these remarks to express my satisfaction with the manner in which Mr. McCallum has performed his duties. His charge covers a large area, and unfortunately the climate is often very feverish. Mr. McCallum has been active in the discharge of his duties, has shown good discretion in dealing with the important questions which have come before him, and, is now an efficient and zealous officer.

A. McCandoch M.
Collector of Kawara

Kanara

The district has been throughout the year under the Superintendence of Dr. Macdonald, who has held charge of it since December 1871. The Assistants are Messrs Reed and Macfarlane. Both have been continuously on duty. The season is described as having been not quite up to the average, and the rainfall, which was plentiful, not having been altogether favourable. The S.W. monsoon appears to have been precipitated by the explosion of the 21st May to the detriment of the early sowing operations, while July saw a recrudescence of disease. The following returns afford a comparison between the Kanara and the whole Presidency during the year, and set forth a slight decrease amounting to 1½ per cent. in the number of the usual population. The births and deaths that have been registered respectively at the rate of 21.31 per 1000. [illegible] the registration of deaths to births which was much increased by the famine has now diminished, represents its normal character. The accounts for the Taluks of Ankola, Kumta, Honawar, Bhatkal, Mirjan and Supa, which make their appearance in the dry season, and cease when the

Kanara

The district has been Superintendent this year under Mr Macdonald, who has held charge of it since December 1871. His assistants Messrs Todd and MacCallum, have been continuously on duty. The season is described as having been not quite up to the average, owing to the rainfall, which was plentiful, not having been altogether seasonable. The S.W. monsoon appears to have been precipitated by the cyclone of the 21st May to the detriment of the early sowing operations, while July was a month of drought & the young rice crops suffered in consequence. On the whole the season with the fishery below the average, was not unfavourable. A slight decrease amounting to 1½ per cent is shown in the numbers of the penal population. The births & deaths that have been registered are respectively at the rate of 21·03 & per 1000. ~~In Collector considers that the classification between the registration of deaths to births which was much increased by the famine has now diminished, & the Medical diminish, resumed its normal character.~~ He accounts for the excess of deaths over births, ~~but~~ by a reference to the unhealthiness of the district and 2nd to the large floating population who make their appearance in the dry season, and among whom the

Letter from the Comr. S.D.
No. 2413/27 July 1880 - Submitting,
with his remarks, the administra-
tion reports of the Collectors of Kumaon
& his Circle for 1879-80.-

Steps taken thereon
L.D. 11

the district has been unusual the year under Mr Macdonald, who has held charge of it since December 1871. The additions by Messrs Todd and Macalum. have been continuously on duty. The season is described as having been not quite up to the average, owing to the rainfall. which was plentiful, not having been altogether seasonable. The S. W. monsoon appears to have been precipitated by the cyclone of the 21st May to the detriment of the early turnip operations, while July was a month of drought & the young rice crops suffered in consequence. But on the whole the season month by month below the average, was not unfavourable A slight decrease amounting to 1½ per cent is shown in the numbers of the usual population. The births & deaths that have been registered are respectively at the rate of 21.03 & per 1000. ~~In Director considers that the discrepancy between the~~ registration of deaths to births which was much increased by the famine has now ~~diminished~~, in the Director's opinion, resumed its normal character. He accounts for the excess of deaths over births, ~~as~~ by a reference to the malarial fevers of the district and 2nd to the large floating population who make their appearance in the dry season, and among whom the

mortality is always great, while
the men leave their families at home
there is no doubt
they are ~~the~~ liable ~~that the power of~~
~~home ties beyond reach may be the cause~~
~~of desertion~~ of ~~the~~ ships; but the fact
would not appear to be tenable
as according to it the entire population
of the District would disappear in a
few years unless it were recruited
from without. The probability is that
the disproportion which the returns
show between births & deaths is due
in Kaiwara, as elsewhere, to faulty
registration of the former. The effects
of disease appear distinctly declined during
the year under report, a result which
is attributed to the healthiness of the
season. The Director refers in this
area as well as elsewhere to the valuable
services rendered by Asst. Surgeon Mac-
lenzie in charge of the Compita this
Pensionary. Vaccination shows improve-
ment both under primary operations
& revaccinations. But with the Director
of Native Affairs doubts as to the
accuracy of the returns furnished
by the vaccinators, & the Director indicates
at some length in the necessity
that exists for the personal presence
& supervision of the Deputy Com-
missioners who have never visited the
District. The Macdonald remarks
may be forwarded to the Govt. Com-
missioner with a request that early attention
may be paid to the requirements
of Kaiwara in this respect

2) Agricultural stock shows a slight decrease under the heads of Cattle, Carts, Ploughs & Horses. Cattle disease prevailed to some extent during the year. 3028 head having been attacked of which 1067 died. Prices of labour remained stationary. The prices of the principal food grains fell, but they are still higher than they were before the famine. No taccavi advances were made. The export trade in skins of the last harvest felt of considerably, owing to the withdrawal of the Harvester Co. of Messrs W. Kirk & Co. while that of Complete skins remained. The trade in local products such as cocoa nuts, Cardamoms, pepper, felt into Sta. is reported to have been active. The fairs at Sirsi were well attended, but no fair was held at Yellapur in 1877-78. Mr Macdonald gives a very interesting sketch in his 14th para of the different classes of people inhabiting the district. He is of opinion that they have completely recovered from the effects of the famine.

3) The Jamabandi Settlement work during the year has been completed & the necessary data in all talukas except Supa & Yellapur, the duties in which is satisfactorily progressing, & expected to be finished before the [illegible] of Baluraos as does in the

mortality is always great, while so many leave their families at home there is no doubt ~~that the force of~~ some fine in the second of these districts ~~this second station would be lost where~~ ~~warms~~ ~~to because of sickness~~; but the fact would not appear to be traceable as, according to it, the entire population of the district would disappear in a few years unless it were recruited from without. The probability is that the disproportion which the returns show between births & deaths is due in Kanara, as elsewhere, to faulty registration of the former. The attendance at dispensaries slightly declined during the year under review, a result which is attributed to the healthiness of the season. The Director refers in his & the Kanara as well as elsewhere to the valuable services rendered by Asst. Surgeon Macgeorge in charge of the Complete Dispensary. Vaccination shows improvement, both under primary operations & revaccinations. But with the Director & Comm.r's ~~salutary~~ doubts as to the accuracy of the returns furnished ~~the~~ vaccinators, & the Director visits at some length on the necessity that exists for the personal presence & supervision of the Deputy Comm.r. Comm.r who has never visited the district. ~~Mr~~ Macdonald's remarks may be forwarded to the Comm.r & Comm.r with a request that early attention may be paid to the requirements of Kanara in this respect.

2) Agricultural Stock shows a great decrease under the heads of Cattle, Carts, Ploughs & Horses. Cattle-disease prevailed to a large extent during the year. 3028 head having been attacked of which 1005 died. Price of labour remained stationary. The prices of the principal food grains fell, but they are still higher than they were before the famine: no Takavi advances were made. The export trade in skins of the goat & sheep fell off considerably, owing to the insolvency of the Honawar Co. of Messrs W. Nicol & Co. While that of Cocoanuts shows an increase. The trade in local products such as areca nuts, Cardamoms, pepper, Betel nuts &c. is reported to have been active. The fairs at Sirsi were well attended, but no fair was held at Sirsi in 1877/78. Mr Macdonald gives a very interesting sketch in his 14th para of the different classes of people inhabiting the district. He is of opinion that they have completely recovered from the effects of the famine.

3) The Jamabandi Settlement was duly completed within the prescribed date in all Talukas excepting Ankola, the details in which is satisfactorily explained, excepting also Sirsi Talukas & Honavar & Kalkeri & Kumta & Bhatkal as none in the

mortality is always great, while as they leave their families at home there are no births. ~~that the excess of~~ ~~some three in the second season may be due to~~ ~~this second reason may be due to~~ ~~to the absence of families~~, but the first would not appear to be tenable as, according to it, the entire population of the district would disappear in a few years unless it were recruited from without. The probability is that the discrepancy which the returns show between births & deaths is due in Kanara, as elsewhere, to faulty registration of the former. The attendance at dispensaries slightly declined during the year under review, a result which is attributed to the healthiness of the season. The Director refers in this & in Kanara as well as elsewhere to the valuable services rendered by Asst. Surgeon Macknight in charge of the Conjeeveram Dispensary. Vaccination shows improvement, both under primary operations & revaccinations. But both the Director & Comm.r refer doubts as to the accuracy of the returns furnished by the vaccinators, & the Director insists at some length on the necessity that exists for the personal presence & supervision of the Deputy Com.r who has never visited the district. Mr Macdonald's remarks may be forwarded to the Com.r & Comm.r with a request that early attention may be paid to the requirements of Kanara in the

2) Agricultural stock shows a slight decrease under the heads of cattle, Carts, Ploughs & Horses. Cattle-disease prevailed to some extent during the year, 3028 head having been attacked, of which 106 died. Price of labour remained stationary. The prices of the principal food grains fell, but they are still higher than they were before the famine: No Takavi advances were made. The export trade in cotton of the last year fell off considerably, owing to the insolvency of the Karvar Co. of Messrs W. Nicol & Co. while that of Cumpta shows an increase. The trade in local products such as areca nuts, Cardamoms, pepper, Jaki nuts &c. is reported to have been active. The fairs at Sirsi & Sonda were well attended; but no fair was held at Sirsi in 1877/78. Mr Macdonald gives a very interesting sketch in Sec 14 of the different classes of people inhabiting the district. He is of opinion that they have completely recovered from the effects of the famine.

3) The Jamabandi settlement was duly completed within the prescribed date in all Talukas excepting Kumpta, the delay in which is satisfactorily explained, & excepting also Sirsi Talukas on account of Bala Rao as does in the

taxes of the Survey Settlement for the introduction of the Survey Settlement, which was carried out in Taluk of Coimpta, Sirsi, Yellapur & Supa. The results of the Settlement are shown below

	Land Revenue	Increase	Assessed Rev.	Increase	Assessed Rs.	Increase
1874	4,46,388-15-5		1,10,836-8-0		52,384-14-3	
1921	8,57,362-12-1	4,973-12-8	1,06,585-10-8	2,270-12-4	52,607-8-4	264-4-1

The increase in Land Rev is due to the introduction of the Survey Settlement, the increase in the assessment in Kanara Taluks collected and the full amount of the Survey Rates is not realised until the 3rd or 5th year after the introduction of the Settlement according as the occupant does or does not cultivate his Land. There has been a decrease of Rs. 625 under Konkani due to the excessive cloudiness of the season which Mr Macdonald has in connection with the Forest Dept. Increases in clearing with Konkani cultivation have been Rs. 1,500 & Rs. 22 & have been granted & collected. No remark. Abkari Rev. shows a decrease of Rs. 2,283 under the head of Spirits & Toddy & of Rs. 209 under Opium, while there is a decrease of Rs. 222 under "Drugs" The Protestants are ordinary

have already been considered. Before closing
Report - note came into force in Kenara
with the current year. a balance
of Rs. 1062 : 0 / Rs. 1000 land Rev. and
Rs 62 + d. Rupees Jeran entered to the
attestandings etc fully 31st the arrears
of former years have been dealt with
during the year in a very satisfactory
manner. The whole amount Rs 7500
which remained outstandings pending
the decision in the Kenara land
case has been collected and with the
exception of a sum of Rs 1000 due from
a minor Estate, which will eventually
be realized, & are of Rs 6500 due from
Kajees or Religious trusts which it
may however be necessary to remit,
there are now no arrears of land Rev.
or account of former years. Rs. 1204
remains on account of charges for the
erection of boundaries - marks have now been
collected, but will be shortly realized.
274 Rupees for the Collection of the
Revenue were issued but 1000 have been
remitted to us only 28 cases

4/ Receipts from Police & Prisoners
Roads have been Rs 5-1992 & Rs
while d. Rupees 108 Receipts have been
Rs. 1957 & the 4322. the estimate
is based accordingly for the former.
there is a slight falling off (from
Rs 16.11.25 to Rs. 15,91) Receipts
from Ferries. the [redacted] receipts
of ferries which the Collector reports
Estate & Rupees [redacted]
[redacted] have been
[redacted] for Tenders were received as

Records of the Survey Dept. for the introduction of the Survey Settlement, which was carried out in Years of Comptn, Sirur, Belgaum & Supa. The results of the Settlement are shown below

	Land Revenue Demand	Assessed Occupied Lands	Unoccupied Lands
1911	6,46,388-15-5	1,10,836-8-0	52,354-14-3
1921	8,87,362-12-1	4,972-12-8	1,06,565-10-4	2,270-12-4	52,607-6-4	264-4-1

The increase in Land Rev. is due to the introduction of the Survey Settlement. The increase in Inam is also owing to the Survey Settlement in Kanara gradually effected. And the full amount of the Survey Inam is not realised until the 3rd or 5th year after the introduction of the Settlement, according to the occupant does or does not cultivate his land. There has been a decrease of Rs. 825 under Konam due to the circumstances of the case. The course which Mr Macdonald has, in concert with the Forest Dept. pursued in dealing with Konam Cultivation has been proper & judicious. Remissions amounting to Rs. 222 have been granted & sale for no remark. Abkari Rev. shows a decrease of Rs. 2,203 under the head of Spirits & Toddy & of Rs. 209 under Opium, while there is a decrease of Rs. 222 under "Drugs" The Registration are ordinary.

new Abkari arrangements, which have been considered especially short - will come into force in Kanara with the current year. A balance of Rs. 6002 - 8 - 1 (Rs. 6000 land Rev. and Rs 62 - 8 d. Funds) was expected to be outstanding on 31st July 1921. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole account (Rs 7 - 8 - 1) which remained outstanding pending the decision in the Kanara land case has been decided and with the exception of a sum of Rs. 248 - 8 due from a minor ryotdar, which will eventually be realized, one of Rs 1873 - due from Kajees or Mohammadan Inams, which it may possibly be necessary to remit, there are now no arrears of land Rev. on account of former years. Rs. 1204 remains on account of charges for the erection of boundary marks remain un-collected, but will be shortly realized. 274 - 8 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4/ Receipts from Abkari & Provincial Funds fell from Rs. 57,223 to Rs. 44,254 while L. Fund Cess receipts rose from Rs. 29,7 - 8 to Rs. 4 3 2 9. The statements in trade accounts for the former have a slight falling off (from Rs. 16,4 2 - 8 to Rs. 15,8 1 2) in the receipts from Pepper. The [redacted] sales of Pepper which the Director sends to Calcutta for sale on account of Government, have been a disappointment for the last few years.

lands of the Survey Dept. for the introduction of the Survey Settlement, which was carried out in Taluka of Compta, Kumi, Yellapur & Supa. The results of the Settlement are shown below

	Land Revenue Demand	Paper Rec.	Arrears	L. Funds Demand
1911	1,46,268-15-5	1,10,836-8-0		52,358-14-3
1921	1,51,362-12-1	4,973-12-8	1,08,505-10-8	2,270-13-4	54,607-6-4	268-4-1

The increase in Land Rev is due to the introduction of the Survey Settlement, the increase ~~in Arrears~~ in Arrears Demand is in Kanara gradually collected, and the full amount of the Survey Rates is not ~~collected~~ realized until the 3rd or 5th year after the introduction of the Settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs. 825 under Konkani due to the excessive floods of the season. The course which Mr Macdonald here, in concert with the Forest Dept. pursued in dealing with Konkani Cultivation has been proper & judicious. Remissions amounting to Rs. 22 & have been granted & calls for no remark. Abkari Rev. shows a decrease of Rs. 2,283 under the head of Spirits & Toddy & of Rs. 209 under Opium, while there is a decrease of Rs. 222 under "Drugs". The fluctuations are ordinary

new Abkari arrangements of which have been considered. Separately Govt. will come into force in Kanara with the current year. A balance of Rs. 6052-8 (Rs. 6000 land Rev. and Rs 52-8 d. Rents) was expected to be collected on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole account (Rs 7,000) which remained outstanding pending the decision in the Kanara land case has been decided, and with the exception of a sum of Rs. 2405 due from a minor Estate, which will eventually be realized, & one of Rs 1672 due from Kajees or Peerjadas Inams, which is very horribly be necessary to remit, there are now no arrears of land Rev. on account of former years. Rs. 3204 remain on account of charges for the erection of boundary marks remain in Collectors hands & will be shortly realized. 274 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4/ Receipts from Police & Provincial Roads fell from Rs. 81,223 to Rs. 78,[illegible] while d. Rent Ecls receipts rose fr Rs. 2978 to Rs. 4329. The collections in Trade accounts for the former have a slight falling off (from Rs. 16,428 to Rs. 15,712) the receipts from Pensions. The [illegible] Jacks [illegible] which the Collector sends annually to Court have been a very valuable [illegible] of Revenue. There has been a large demand for timber which has

Lands of the Survey Dept. for the introduction of the Survey Settlement, which was carried out in Taluk of Coimbatore, Pollachi, Udumalpet & Dharapuram. The results of the Settlement are shown below

	Land Revenue Increase	Water Rate Increase	Miscellaneous Increase	Total Increase
1911	4,46,368-15-5	1,10,836-8-0	82,384-14-3	
1921	8,87,362-12-1	4,979-12-6	1,08,585-10-8	2,270-12-4	87,607-6-4	2,86-8-1

The increase in Land Rev is due to the introduction of the Survey Settlement. The increase in Water Rate is gradually effected and the full amount of the Survey Rates is not collected until the 3rd or 4th year after the introduction of the Settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs. 825- under Kudimaramat due to the irregularities of the season. The cause which Mr. Macdonald says, in accord with the Forest Dept. has been dealing with Kudimaramat Alterations has been proper & judicious. Remissions amounting to Rs. 22- have been granted on account for no remark. Abkari Rev. shows a decrease of Rs. 2,203 under the head of "Spirits & Toddy" & of Rs. 209 under "Arrack", while there is a decrease of Rs. 222 under "Drugs" The fluctuations are ordinary

new Abkari arrangements of which have been considered. Especially Port-wine came into force in Kanara with the current year. A balance of Rs. 6002-8 (Rs. 6000 land revenue Rs 62-8 d. Kanara) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs 75,000) which remained outstanding pending the decision on the Kanara land case has been decided and with the exception of a sum of Rs. 2485 due from a native State, which will eventually be realized, & one of Rs 1672 due from Kanjeeo or Kanjadeo Kanara which is very possibly be necessary to remit, there are now no arrears of land rev. on account of former years. Rs. 3204 remain on account of charges for the erection of boundary marks remain un-collected, but will be shortly realized. 274 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4/ Receipts from Dist & Municipal Boards fell from Rs. 87,223 to Rs. 46,776 while L. Fund Cess receipts rose from Rs. 29,758 to Rs. 43,129. The statistics in trade accounts for the former there is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from Ferries. The [redacted] facts of these which the Director records call for no remarks. There has been a large [illegible] of Rs. 1,000 for timber sold under a

well as the salaries of Revenue Officers such as Tehsildars & Deputy Collectors.

Whilst there is an increase of Rs. 1,07,016 in receipts as compared with 1877/78, the total expenditure has decreased by Rs. 6151. Fee grants of land have been liberally made under the Official rules which apply to the District. The harmonious relations which exist between the Revenue & Police Officers is one of the most satisfactory features in the administration of this District. Receipts from Forest Dues show an increase of Rs. 40,855, and from Court Fee Stamps a decrease of Rs. 1,001. Excise Revenue as an Imperial Income amounted to Rs. 64,666. which was increased on account to Rs. 63,052.

The [illegible] number of minors' estates in the hands of the Court of Wards, and her Guardian pays [illegible] attention to the finances of the estates [illegible]

5) The amount of village and Taluka Inspection done by the Collector personally was very satisfactory. Considering that he was absent for more than 2 months during the cold season at Poona, the examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention but as limited as the Collector is advisable to

have been until the completion
the Survey Settlement a large
body of lands which could be
characterized as waste in other
districts, but which possibly from
value will arise in future time
Kanara. The Survey Settlement was
introduced, as has been already
specified in this Report (para. 3 of
Letter of 4 October 1847) the
year under review. The Settlement
in each case was fully carried
& remains effect before the state
need not be dwelt on here but
may add that estimates have at last
5 or 6 years with the exception of
the Survey of Kanara. But one reason
of the very unsatisfactory results of the
Mamlatdars & efficiency in the
cultivation & Jamabandi. Cases so that
that they were unable to obtain
a sufficient establishment in time
before the commencement of the year

6) The result of the decision of
the High Court in the Kanara Land
Case, (Narayan Bahuta v. Govt. of
Bombay) has been that the cases
of the 5 or 6 suits against that which
were pending two years ago have
been struck off the file in the absence
of prosecution & decisions passed in
favor of Govt. 2 or 4 suits were then
heated in 1867/75 and 76 in the
year under review. The other suits
in which Govt. were concerned remained
related to have been dismissed

well as minor miscellaneous forest produce such as honey & drugs & roots. The result is an increase of Rs. 1,09,016 in receipts as compared with 1870/71, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue & Forest officers is one of the most satisfactory features in the administration of the Kanara Collectorate. Receipts from forest dumps show an increase of Rs. 4055, and from Court Fee Stamps a decrease of Rs 1,001. Excise Pay Revenue as originally assessed amounted to Rs. 64,466. Which was reduced on appeal to Rs. 53,852. The large number of minors' estates now in the hands of the Collector of Kanara, and his Assistant Mr Macdonald pays special careful attention to this branch of his duties. ~~Mr Macdonald is worthy of the Service to which he belongs~~

5) The amount of village and Talooka Inspection done by the Collector personally was very satisfactory. Considering that he was absent for more than 2 months during the open season at Goa, the Examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention, but as limited as the Collector it is advisable to

have serve until the completion of the Survey Settlement a large body of cases which would be characterized as trifles in other districts, but which possibly have been valuable at some future time in Kanara. The Survey Settlement was introduced, as has been already specified in this case (Kara Suits Portion of 4 Talukas during the year under review. The Settlement in each case was fully considered & reserves effected before sanction, & need not be dwelt on here. Mr Macdonald estimates that at least 5 or 6 years will be required to complete the Survey of Kanara. Part are some of the very successful crops of Mr Macdonald's experiments in the cultivation of Jute, & which show that they were right in their attempt to obtain a further supply of good Jute seed from Bengal before the commencement of the rains.

6) The result of the decision of the High Court in the Kanara Inam Case (Vaikunta Prabhu vs. Govt. of Bombay) has been that the whole of the 574 suits against Govt. which were pending two years ago have been struck off the file in the absence of prosecutors & decisions passed in favor of Govt. 62 & suits were disposed of in 1876-77 and 210 in the year under review. Two other suits in which Govt. were concerned & which related to Inams have been disposed

velcome ~~me~~ a ~~a~~ collaterals Forest
Produce in Cases as Honey & Dry Skins.
The result is an increase of Rs. 1,09,016
in Receipts as compared with 1927-28,
while Expenditure has decreased by
Rs. 6,151. Free grants of timber have
been liberally made under the
special rules which apply to the
District. The harmonious relations
which exist between the Revenue
& Forest Officers is one of the most
satisfactory features in the Ad-
-ministration of this Kanara Collectorate.
Receipts from General Stamps show
an increase of Rs. 4055, and from
Court Fee Stamps a decrease of Rs 1,001.
Excise Duty Revenue as original assessed
amounted to Rs. 54,400. Which was re-
duced on appeal to Rs. 05,051.
A large number of minors' estates
~~—~~ in the hands of the Collector of
Kanara, and the Board has given
his most careful attention to this
branch of his duties ~~which possible~~
~~for him to devote them~~

5) The account of village and
talukas Inspections done by the Collector
personally was very satisfactory.
Considering that he was absent
for more than 2 months during
the year ~~during~~ at Goa. the Exa-
-mined also all but one of the
Registers of Deeds. The destruction
of useless records has received
attention, but as limited act &
the Rules do not provide for

have come until the completion of the Survey Settlement a large body of cases which would be characterised as trades in other districts, but which possibly may become valuable at some future time in Kanara. The Survey Settlement was introduced, as has been already specified in this case (Kanara Suits Nos. 4 & 5 of 1865) during the year under review. The Settlement in each case was fully considered & reviewed (Govt. before sanction), & need not be dwelt on here. Mr Macdonald estimates that at least 5 or 6 years will be required to complete the Survey of Kanara. Govt. are aware of the very successful issue of Mr Macdonald's experiments in the cultivation of flax, & were relieved that they were enabled to obtain a further supply of seed from Nepal before the commencement of the rains.

5) The result of the decision of the High Court in the Kanara Land Case (Vaikunta Bapuji vs. Govt. of Bombay) has been that the whole of the 574 suits against Govt. which were pending ten years ago have been struck off the file in the absence of prosecution & decisions passed in favor of Govt. The 64 suits were then reduced in 1874/75 and 210 in the year under review. Two other suits in which Govt. were concerned & which remained to be tried have been dismissed

were to wait and see what revenue which is described as being the so-called 6 threat minutes. The Collector with Clerks would submit a separate report upon the 40 out of 70 miscellaneous decisions under Mr Gray's Act No of 1876 which examined the Collector, and the work so appears to be fairly well done. There has been an increase in crime during the year the number of Persons being 1671 as against 1505 in 1877/78. and of persons convicted 1744 as against 1537. but the Chief Master attributes the increase to the better police, such as resistances &c but the value of property stolen was Rs. 2,08,874 as against Rs. 62,420 in the previous year, but the Recovered property Value stolen amounted only Rs. 74,458 as against Rs. 42,037 in 1877/78 or 36 instead of 67 per cent. 25 Police petitions had been presented under Mr Gray Act VIII of 1869 the Chief Magistrate does not state whether they were disposed of in a manner satisfactory to them, whether they are "suppressing to a limited extent". but are glad to observe that the Chief Court of Appeal has greatly limited Police powers. Also that the Chief Magistrate. Copy of Mr Macdonald's para 52 on the misinterpretation of arms & ammunition by Police may be forwarded to the Judicial Dept for consideration.

7/ The meeting of the Dist. C. C.
Committee was held during the
the receipts including an opening
credit balance of Rs. 25017, amounted
to Rs. 77,431, while the expenditure
was Rs. 77,654, leaving a closing bal-
ance of Rs. 15,520. Considerable
sums have been spent on roads,
bridges, bunds & drainage also
in official works & repairs. An
estimate is present to Govt. The
Collector of the works both ordinary
roads, that have been carried out
during the year. Copy of his remarks
and recommendations on the subject
of Police Stations may be forwarded
to the P. to S. - The Council state
that the periodical reports the
Superintendence of the divisions &
roads in the Rais route with
their progress checks on the engineers in charge
have proved to be very useful. It is
the Master draws further attention
to the fact of the Superintending Engineer as chairman of
the Committee's responsibility. The
number of Engineer officers in the
district has not changed, but
subordinate officers have increased from
62 to 74 and the number of children
attending schools of the Committee
has risen from 4400 in 1878/79
to 5050 in the year under review
the high school at _____ the
Anglo-Vernacular schools at Rajpipla
and Dabhoi & 20 village schools. The Excellent

in favour of Govt. during the year. And there is reason why are suit pending which is described as being complicated case of great importance. The Collector with Chowtry Subunit a separate report from it. 40 out of 70 remanded decisions under Bombay Act VII of 1876 were disposed of the Collector. and the work is reported to be fairly well done. There has been an increase in crime during the year. The number of offences being 1671 as against 1606 in 1877/78. and of persons convicted 1744 as against 1557. but the Asst. Magistrate reports the increase to be chiefly under minor heads such as nuisances &c. The value of property stolen was Rs. 2,85,7 as against Rs. 6,24,420 in the previous year. but the Police recovered Rs. 7,458 as against Rs. 42,037 in 1877/78 or 30 instead of 67 per cent. 28 house patels held enquiries under Bombay Act VIII of 1867. The Asst. Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent". Govt. are glad to observe that the Chief Local & Municipal visited Asst. Magistrate's station. The opinion of Mr Macdonald's pleasure on the administration of crime & prevention by case may be forwarded to the Judicial Dept. for consideration

7/ The meeting of the Dist. C. B.
Committee was held during the year.
The receipts including an opening
credit balance of Rs. 25 617, amounted
to Rs. 77,431, while the expenditure
was Rs. 77,664, leaving a closing bal-
ance of Rs. 15,520. Considerable
sums have been spent on roads,
bridges, tanks & dharmsalas, both
in original works & repairs. An
interesting account is given by the
Collector of the works both especially
roads, that have been carried out
during the year. Many of his remarks
and recommendations in the Early Ad-
ministration Portion may be forwarded
to the P. W. D. - The Committee states
that the periodical reports the
municipalities & the division of
roads in the Peint report with re-
ference thereto devolve on the Engineer in the
division. but urged ~~It is important to observe~~ that
the Collector draws Government attention
to the fact of such
Surgeon Bradshaw as chairman of
the Committee unsatisfactory. The
number of indigenous schools in the
District has not changed, but
primary schools have increased from
82 to 84 and the number of scholars
attending schools of the association
has risen from 4464 in 1878/79
to 5075 in the year under review
the High School at Karwar & the
Anglo-vernacular School at Honnavar
shown as being the excellent

in favour of Govt. during the year, and there is none only one suit pending, which is described as being complicated & of great importance. The Collector will shortly submit a separate report for the yr. 40 out of 70 memorials decisions under B. Navy Act VII of 1876 were examined by the Collector, and the work is reported to be fairly well done. There has been an increase in crime during the year, the number of offences being 1671 as against 1505 in 1877/78. and of persons convicted 1744 as against 1557. but the Govt. traces the increase to the ~~under~~ minor heads such as nuisances &c. The value of property stolen was Rs. 24,507 as against Rs. 62,420 in the previous year, but the ~~number~~ value of ~~the~~ stolen property recovered Rs. 7,458 as against Rs. 42,037 in 1877/78 or 30 instead of 67 per cent. 25 house patrols kept on.

Income under B. Navy Act VII of 1879. The Dist. Magte. does not state whether they ~~work~~ discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent". Govt. are glad to observe that the Dist. Jail was recently visited by the Dist. Magte. & Collr. & Mr. Macdonald & Rana Sir on the administration of Jail &c. documents in case may be forwarded to the Judicial Dept. for information

7/ The meeting of the West D.B. Committee was held during the year. The receipts, including an opening credit balance of Rs. 25017, amounted to Rs. 97,431. While the expenditure was Rs. 77,864. leaving a closing balance of Rs. 19,520. Considerable sums have been spent on roads, bridges, bandas & drainage also, with in official works & repairs. An interesting account to given by the Collector of the works both ordinary roads, that have been carried out during the year. Many of his remarks and recommendations on the subject of Police stations may be forwarded to the P. W. D. - The Commr. states that the periodical reports the Municipalities of his division & now in the Press & not with out ~~but~~ ~~Government to remark~~ that the Collector draws prominent attention to the zeal & energy of Asst. Surgeon Mackenzie as chairman of the Gumla Municipality. The number of Primary Schools in the district has not changed. but Primary Schools have increased from 52 to 54 and the number of scholars attending schools of this description has risen from 44 to 54 in 1878/79 to 505 in the year under review the High School at Ranchi & the Anglo-Vernacular School at Chaibasa shown of as being in excellent

Copy of Mr Macdonald's
remarks on Mr Cammiade's
Vernacular Schools Report for
1868-69 to the Educational Dept.
for consideration.

In concluding this report Mr Macdonald enters upon a short review of the progress which the Kanara District has made during the nine years since the office of Collector and Assistant Magistrate was abolished, and takes the opportunity to record his sense of the valuable services rendered by Mr Macdonald while filling that office. He then proceeds to offer some remarks as to the future subdivision of the Province. His remarks on the subject of the railway to Karwar may be transmitted to the P. W. D. for consideration.

The Revd. 1st Assist. Collector has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspections in the Honawar Taluka suffered by his detention in Karwar for [illegible] during the Collector's absence at [illegible] but this was unavoidable.

[illegible] Collector to commend [illegible] he is thoroughly [illegible] with the Assistant Collector's [illegible] in which he has worked during the year. He has attended carefully to standing orders & has

in statistics. Copy of Mr Macdonald's remarks on Inspection Reports in which the Govt. concurs. Vernacular Schools to be forwarded to the Educational Dept for consideration. In concluding this report Mr Macdonald enters upon a short review of the progress which the Kanara district has made during the nine years since the office of Collector and Magistrate was separated from that of Superintendent of Canara, and gratefully to Mr Elliot for his long & valuable services in that position. He hopes that Mr Macdonald will put on record for the future guidance of future officers his views as to the proper subdivision of the Sanctioned establishment. His remarks on the subject of the railway to Karwar may be transmitted to the P. W. D. for consideration.

The Board, 1st Asst Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His annual inspection in the Honawar Taluka was suffered by his detention in Karwar for two months during the Collector's absence at Goa. But this was unavoidable.

Mr Callaway, 2nd Asst Collector is somewhat unequal. But he is excellent of his kind & the Collector & Commr. for the manner in which he has worked during the year. He has attended carefully to standing orders & has

Clerical accuracy in the supervision of accounts.

Post note that in three out of five appeals from Mr Callaway's decisions were reversed.

institutions. Copy of Mr Macdonald's remarks on Vernacular Schools may be forwarded to the Educat. Dept. for consideration. In concluding this report Mr Macdonald enters upon a short review of the progress which the Kanara district has made during the nine years since the office of Collector was last separated from that of Dharwar, & the Shortcomings to which he attributes the backwardness of this District. This shows that Mr Macdonald with just and kind for the future welfare of Officers has reasons to the frequent subdivision of the Presidency Collectors. His remarks on the question of the railway to Karwar may be transferred to the P. W. D. for consideration.

The Board, (at Agr Collector) has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His unfavorable impression in the Honawar Taluka suffered by his detention in Karwar for two months during the Collector's absence at Goa. But this was unavoidable.

Mr J. Macallum, 2nd Asst Collector is somewhat unequal, but he is strong in his dealings with the Collector & Canara for the manner in which he has worked during the year. He has attended carefully to standing orders & has

Collector of Kanara.

REVENUE DEPARTMENT.

No. 4479

Bombay Castle, 27 August 1880.

Letter from the Commissioner, S. D., No. 1674, dated 31st July 1880—Submitting, with his remarks, the Administration Reports of the Collector of Kánara and his Assistants for 1879-80

RESOLUTION.—The district has been throughout the year under Mr. Macdonald, who has held charge of it since December 1871. His Assistants, Messrs. Todd and McCallum, have been continuously on duty. The season is described as having been not quite up to the average owing to the rainfall, which was plentiful, not having been altogether seasonable. The south-west monsoon appears to have been precipitated by the cyclone of the 21st May, to the detriment of the early sowing operations, while July was a month of drought and the young rice crops suffered in consequence. But on the whole the season, though perhaps below the average, was not unfavourable. A slight decrease amounting to 1¼ per cent. is shown in the numbers of the rural population. The births and deaths that have been registered are respectively at the rate of 21 and 38 per 1,000. The proportion of deaths to births, which was much increased by the famine, has now, in the Collector's opinion, regained its normal character. He accounts for the excess of deaths over births by a reference, 1st, to the unhealthiness of the district, and, 2nd, to the large floating population who make their appearance in the dry season, and among whom the mortality is always great, while, as they leave their families at home, there are no births. There is no doubt some force in the second of these two reasons; but the first would not appear to be tenable, as according to it the entire population of the district would disappear in a few years unless it were recruited from without. The probability is that the disproportion which the returns show between births and deaths is due in Kánara, as elsewhere, to faulty registration of the former. The attendance at dispensaries slightly declined during the year under review, a result which is attributed to the healthiness of the season. The Collector refers in his 6th paragraph as well as elsewhere to the valuable services rendered by Assistant Surgeon Mackenzie in charge of the Kumta Dispensary. Vaccination shows improvement, both under primary operations and re-vaccinations. But both the Collector and Commissioner express doubts as to the accuracy of the returns furnished by the vaccinators, and the Collector insists at some length on the necessity that exists for the personal presence and supervision of the Deputy Sanitary Commissioner, who has never visited the district. Mr. Macdonald's remarks may be forwarded to the Sanitary Commissioner with a request that early attention may be paid to the requirements of Kánara in this respect.

2. Agricultural stock shows a slight decrease under the heads of carts, ploughs and horses. Cattle-disease prevailed to some extent during the year, 3,028 head having been attacked of which 1,059 died. Prices of labour remained stationary. The prices of the principal food grains fell, but they are still higher than they were before the famine. No takávi advances were made. The export trade in cotton of the port of Kárwár fell off considerably, owing to the insolvency of the Kárwár Company and of Messrs. W. Nicol & Co., while that of Kumta shows an increase. The trade in local products, such as areca-nuts, cardamums, pepper, gall-nuts, &c., is reported to have been active. The fairs at Gokarn and Oolvi were well attended; but no fair was held at Sirsi in 1879-80. Mr. Macdonald gives a very interesting sketch in his 14th paragraph of the different classes of people inhabiting the district. He is of opinion that they have completely recovered from the effects of the famine.

3. The jamábandi settlement was duly completed within the prescribed date in all tálukas excepting Yellápur, the delay in which is satisfactorily explained, and excepting also such tálukas or portions of tálukas as were in the hands of the Survey Department for the introduction of the survey settlement.

He is of opinion that they have completely recovered from the effects of the famine.

3 The jamábandi settlement was duly completed within the prescribed date in all tálukas excepting Yellápur, the delay in which is satisfactorily explained, and excepting also such tálukas or portions of tálukas as were in the hands of the Survey Department for the introduction of the survey settlement,

which was carried out in parts of Kumta, Sirsi, Yellápur and Supa. The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue.	Decrease.	Local Funds.	Increase
	Rs a. p.	Rs a p	Rs a. p	Rs. a p	Rs a. p.	Rs. a. p.
1878-79	8,46,388 15 5	—	1,10,836 8 0		54,358 14 3	
1879-80	8,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kánara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs. 825 under kumri, due to the vicissitudes of the season. The course which Mr. Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark Abkári Revenue shows a decrease of Rs. 2,283 under the head of "Spirits and Toddy" and of Rs. 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary. New Abkári arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs. 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been decided, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs. 1,873, due from Kájis' or Pírjádés' ináms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years. Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs.1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,858. A large number of minors' estates are in the hands of the Collector of Kánara, and Mr. Macdonald pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

the year under review. The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here. Mr. Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara. Government are aware of the very successful issue of Mr. Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains.

6. The result of the decision of the High Court in the Kánara Land Case (Vaikunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government. 694 suits were thus treated in 1878-79 and 280 in the year under review. Two other suits in which Government were concerned and which related to forests have been similarly disposed of in favour of Government during the year, and there is now only one suit pending, which is described as being complicated and of great importance. The Collector has submitted separate report upon it, which is now under consideration. 40 out of 70 Mámlatdárs' decisions under Bombay Act III. of 1876 were examined by the Collector, and the work is reported to be fairly well done. There has been an increase in crime during the year, the number of offences being 1,871 as against 1,606 in 1878-79, and of persons convicted 1,788 as against 1,551, but the District Magistrate reports the increase to be chiefly under minor heads such as nuisances and hurt. The value of property stolen was Rs. 24,669 as against Rs. 62,420 in the previous year, but the Police recovered only Rs. 7,458 as against Rs. 42,037 in 1878-79, or 30 instead of 67 per cent. 25 Police Pátels hold commissions under Bombay Act VIII. of 1867. The District Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent." Government are glad to observe that the District Jail was frequently visited by 1st Class Magistrates other than the District Magistrate. Copy of Mr. Macdonald's paragraph 52 on the importation of arms and ammunition by sea may be forwarded to the Judicial Department for consideration.

7. One meeting of the District Local Fund Committee was held during the year. The receipts, including an opening credit balance of Rs 25,017, amounted to Rs. 97,431, *while the expenditure was* Rs. 77,884, *leaving a closing balance* of Rs. 19,5[illegible] Consider[illegible] have been spent on roads, bridges, tanks and dharmshálás, both in original works and repairs. An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year. Copy of his remarks and recommendations on the subject of Police Stations may be forwarded to the Public Works Department. The Commissioner states that the periodical report on the municipalities of his Division is now in the press and Government will not therefore dwell on the subject in this Resolution, but would observe that the Collector draws prominent attention to the zeal and energy of Assistant Surgeon Mackenzie as Chairman of the Kumta Municipality. The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,484 in 1878-79 to 5,090 in the year under review. The High School at Kárwár and the Anglo-Vernacular School at Kumta are spoken of as being both excellent institutions. Copy of Mr. Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration. In concluding his report Mr. Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position. It is hoped that Mr. Macdonald will put on record for the future guidance of other officers his views as to the sub-division of the existing tálukas His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration.

8. Mr. Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwá for two months during the Collector's absence at Goa. But this was unavoidable

which was carried out in parts of Kumta, Sirsi, Yellápur and Supa The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue	Decrease	Local Funds	Increase
	Rs. a. p.	Rs. a p	Rs a. p	Rs a p	Rs a. p	Rs a p
1878-79	6,46,388 15 5	—	1,10,836 8 0		54,358 14 3	
1879-80	6,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kánara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs. 825 under kumri, due to the vicissitudes of the season. The course which Mr Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark Abkári Revenue shows a decrease of Rs 2,283 under the head of "Spirits and Toddy" and of Rs. 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary. New Abkári arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been decided, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs 1,873, due from Kájis' or Pirjadés' máms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years. Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs.1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,858. A large number of minors' estates are in the hands of the Collector of Kánara, and Mr. Macdonald pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

the year under review. The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here. Mr. Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara. Government are aware of the very successful issue of Mr. Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains.

6. The result of the decision of the High Court in the Kánara Land Case (Vaikunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government. 694 suits were thus treated in 1878-79 and 280 in the year under review. 7. One meeting of the District Local Fund Committee was held during the year The receipts, including an opening credit balance of Rs. 25,017, amounted to Rs. 97,431, while the [illegible]ure was Rs. 77,884, leaving a closing balance of Rs. 19,[illegible]. Considerable sums have been spent on roads, bridges, tanks and dharmsháláś, both in original works and repairs. An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year. Copy of his remarks and recommendations on the subject of Police Stations may be forwarded to the Public Works Department. The Commissioner states that the periodical report on the municipalities of his Division is now in the press and Government will not therefore dwell on the subject in this Resolution, but would observe that the Collector draws prominent attention to the zeal and energy of Assistant Surgeon Mackenzie as Chairman of the Kumta Municipality. The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,484 in 1878-79 to 5,090 in the year under review. The High School at Kárwár and the Anglo-Vernacular School at Kumta are spoken of as being both excellent institutions. Copy of Mr. Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration. In concluding his report Mr. Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position. It is hoped that Mr. Macdonald will put on record for the future guidance of other officers his views as to the sub-division of the existing tálukas. His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration.

8. Mr. Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwár for two months during the Collector's absence at Goa. But this was unavoidable.

which was carried out in parts of Kumta, Sirsi, Yellápur and Supa The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue	Decrease	Local Funds	Increase
	Rs a. p.	Rs a p	Rs a. p	Rs a p	Rs a p	Rs a p
1878-79	8,46,338 15 5		1,10,836 8 0		54,358 14 3	
1879-80	8,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kanara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs 825 under kumri due to the vicissitudes of the season. The course which Mr Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark Abkári Revenue shows a decrease of Rs 2,283 under the head of "Spirits and Toddy" and of Rs 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary New Abkari arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs. 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been decided, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs 1,873, due from Kájis' or Parjáides' máms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs.1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,858. A large number of minors' estates are in the hands of the Collector of Kánara, and Mr. Macdonald pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

the year under review The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here Mr Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara Government are aware of the very successful issue of Mr Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains

6 The result of the decision of the High Court in the Kánara Land Case (Vaikunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government 694 suits were thus treated in 1878-79 and 280 in the year under review Two other suits in which Government were concerned and which related to forests have been similarly disposed of in favour of Government during the year, and there is now only one suit pending, which is described as being complicated and of great importance The Collector has submitted separate report upon it, which is now under consideration 40 out of 70 Mamlatdárs' decisions under Bombay Act III of 1870 were examined by the Collector, and the work is reported to be fairly well done There has been an increase in crime during the year, the number of offences being 1,871 as against 1,606 in 1878-79, and of persons convicted 1,788 as against 1,551, but the District Magistrate reports the increase to be chiefly under minor heads such as nuisance and hurt The value of property stolen was Rs 24,669 as against Rs 62,120 in the previous year, but the Police recovered only Rs 7,465 as against Rs 42,037 in 1878-79, or 30 instead of 67 per cent 25 Police Pátels hold commissions under Bombay Act VIII of 1867 The District Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent" Government are glad to observe that the District Jail was frequently visited by 1st Class Magistrates other than the District Magistrate Copy of Mr Macdonald's paragraph 52 on the importation of arms and ammunition by sea may be forwarded to the Judicial Department for consideration

7 One meeting of the District Local Fund Committee was held during the year The receipts, including an opening credit balance of Rs 2,017 amounted to Rs 97,431, while the expenditure was Rs 77,884, leaving a closing balance of Rs 19,5[illegible] Considerable sums have been spent on roads, bridges, tanks and dharmshálás, both in original works and repairs An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year Copy of his remarks and recommendations on the subject of Police Stations may be forwarded to the Public Works Department The Commissioner states that the periodical report on the municipalities of his Division is now in the press and Government will not therefore dwell on the subject in this Resolution, but would observe that the Collector draws prominent attention to the zeal and energy of Assistant Surgeon Mackenzie as Chairman of the Kumta Municipality The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,434 in 1878-79 to 5,000 in the year under review The High School at Kárwár and the Anglo-Vernacular School at Kumta are spoken of as being both excellent institutions Copy of Mr Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration In concluding his report Mr Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position It is hoped that Mr Macdonald will put on record for the future guidance of other officers his views as to the sub division of the existing talukas His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration

8 Mr Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwár for two months during the Collector's absence at Goa But this was unavoidable.

The report of Mr. E. McCallum, Second Assistant Collector, is somewhat meagre, but he is spoken of in high terms both by the Collector and Commissioner for the manner in which he has worked during the year. He has attended carefully to standing orders and has shown zeal and energy in the supervision of his charge. Government note that in three out of five appeals from Mr. McCallum as a Magistrate his decisions were reversed.

REVENUE DEPARTMENT

No 4179.

Bombay Castle, 27th August 1880

Letter from the Commissioner, S D, No 1674, dated 31st July 1880—Submitting, with his remarks, the Administration Reports of the Collector of Kanara and his Assistants for 1879-80

RESOLUTION —The district has been throughout the year under Mr. Macdonald, who has held charge of it since December 1871. His Assistants, Messrs Todd and McCallum, have been continuously on duty. The season is described as having been not quite up to the average owing to the rainfall, which was plentiful, not having been altogether seasonable The south-west monsoon appears to have been precipitated by the cyclone of the 21st May, to the detriment of the early sowing operations, while July was a month of drought and the young rice crops suffered in consequence But on the whole the season, though perhaps below the average, was not unfavourable A slight decrease amounting to $1\frac{1}{2}$ per cent is shown in the numbers of the rural population. The births and deaths that have been registered are respectively at the rate of 21 and 38 per 1,000. The proportion of deaths to births, which was much increased by the famine, has now, in the Collector's opinion, regained its normal character He accounts for the excess of deaths over births by a reference, 1st, to the unhealthiness of the district, and, 2nd, to the large floating population who make their appearance in the dry season, and among whom the mortality is always great, while, as they leave their families at home, there are no births There is no doubt some force in the second of these two reasons, but the first would not appear to be tenable, as according to it the entire population of the district would disappear in a few years unless it were recruited from without The probability is that the disproportion which the returns show between births and deaths is due in Kánara, as elsewhere, to faulty registration of the former The attendance at dispensaries slightly declined during the year under review, a result which is attributed to the healthiness of the season. The Collector refers in his 6th paragraph as well as elsewhere to the valuable services rendered by Assistant Surgeon Mackenzie in charge of the Kumta Dispensary Vaccination shows improvement, both under primary operations and re-vaccinations. But both the Collector and Commissioner express doubts as to the accuracy of the returns furnished by the vaccinators, and the Collector insists at some length on the necessity that exists for the personal presence and supervision of the Deputy Sanitary Commissioner, who has never visited the district Mr Macdonald's remarks may be forwarded to the Sanitary Commissioner with a request that early attention may be paid to the requirements of Kánara in this respect

2 Agricultural stock shows a slight decrease under the heads of cattle, carts, ploughs and horses Cattle-disease prevailed to some extent during the year, 3,028 head having been attacked of which 1,059 died. Prices of labour remained stationary The prices of the principal food grains fell, but they are still higher than they were before the famine No takávi advances were made. The export trade in cotton of the port of Kárwár fell off considerably, owing to the insolvency of the Kárwár Company and of Messrs. W. Nicol & Co.; while that of Kumta shows an increase. The trade in local products, such as arecanuts, cardamums, pepper, gall-nuts, &c., is reported to have been active The fairs at Gokarn and Oolvi were well attended; but no fair was held at Sirsi in 1879-80 Mr Macdonald gives a very interesting sketch in his 14th paragraph of the different classes of people inhabiting the district He is of opinion that they have completely recovered from the effects of the famine.

3 The jamábandi settlement was duly completed within the prescribed date in all tálukas excepting Yellápur, the delay in which is satisfactorily explained, and excepting also such tálukas or portions of tálukas as were in the hands of the Survey Department for the introduction of the survey settlement.

The report of Mr. E. McCallum, Second Assistant Collector, is somewhat meagre, but he is spoken of in high terms both by the Collector and Commissioner for the manner in which he has worked during the year. He has attended carefully to standing orders and has shown zeal and energy in the supervision of his charge. Government note that in three out of five appeals from Mr. McCallum as a Magistrate his decisions were reversed

REVENUE DEPARTMENT.

No. 1479.

Bombay Castle, 27th August 1880.

Letter from the Commissioner, S. D., No. 1674, dated 31st July 1880—Submitting, with his remarks, the Administration Reports of the Collector of Kánara and his Assistants for 1879-80.

RESOLUTION.—The district has been throughout the year under Mr. Macdonald, who has held charge of it since December 1871. His Assistants, Messrs. Todd and McCallum, have been continuously on duty. The season is described as having been not quite up to the average owing to the rainfall, which was plentiful, not having been altogether seasonable. The south-west monsoon appears to have been precipitated by the cyclone of the 21st May, to the detriment of the early sowing operations, while July was a month of drought and the young rice crops suffered in consequence. But on the whole the season, though perhaps below the average, was not unfavourable. A slight decrease amounting to 1½ per cent. is shown in the numbers of the rural population. The births and deaths that have been registered are respectively at the rate of 21 and 38 per 1,000. The proportion of deaths to births, which was much increased by the famine, has now, in the Collector's opinion, regained its normal character. He accounts for the excess of deaths over births by a reference, 1st, to the unhealthiness of the district, and, 2nd, to the large floating population who make their appearance in the dry season, and among whom the mortality is always great, while, as they leave their families at home, there are no births. There is no doubt some force in the second of these two reasons, but the first would not appear to be tenable, as according to it the entire population of the district would disappear in a few years unless it were recruited from without. The probability is that the disproportion which the returns show between births and deaths is due in Kánara, as elsewhere, to faulty registration of the former. The attendance at dispensaries slightly declined during the year under review, a result which is attributed to the healthiness of the season. The Collector refers in his 6th paragraph as well as elsewhere to the valuable services rendered by Assistant Surgeon Mackenzie in charge of the Kumta Dispensary. Vaccination shows improvement, both under primary operations and re-vaccinations. But both the Collector and Commissioner express doubts as to the accuracy of the returns furnished by the vaccinators, and the Collector insists at some length on the necessity that exists for the personal presence and supervision of the Deputy Sanitary Commissioner, who has never visited the district. Mr. Macdonald's remarks may be forwarded to the Sanitary Commissioner with a request that early attention may be paid to the requirements of Kanara in this respect.

2. Agricultural stock shows a slight decrease under the heads of cattle, carts, ploughs and horses. Cattle-disease prevailed to some extent during the year, 3,028 head having been attacked of which 1,059 died. Prices of labour remained stationary. The prices of the principal food grains fell, but they are still higher than they were before the famine. No takávi advances were made. The export trade in cotton of the port of Kárwár fell off considerably, owing to the insolvency of the Kárwár Company and of Messrs. W. Nicol & Co., while that of Kumta shows an increase. The trade in local products, such as arecanuts, cardamums, pepper, gall-nuts, &c., is reported to have been active. The fairs at Gokarn and Oolvi were well attended; but no fair was held at Sirsi in 1879-80. Mr. Macdonald gives a very interesting sketch in his 14th paragraph of the different classes of people inhabiting the district. He is of opinion that they have completely recovered from the effects of the famine.

3. The jamábandi settlement was duly completed within the prescribed date in all tálukas excepting Yelláp̃ur, the delay in which is satisfactorily explained, and excepting also such tálukas or portions of tálukas as were in the hands of the Survey Department for the introduction of the survey settlement,

The report of Mr E McCallum, Second Assistant Collector, is somewhat meagre, but he is spoken of in high terms both by the Collector and Commissioner for the manner in which he has worked during the year He has attended carefully to standing orders and has shown zeal and energy in the supervision of his charge Government note that in three out of five appeals from Mr. McCallum as a Magistrate his decisions were reversed

REVENUE DEPARTMENT

No 4170

Bombay Castle, 27th August 1880

Letter from the Commissioner S D No 1671 dated 31st July 1880—Submitting with his remarks, the Administration Reports of the Collector of Kanara and his Assistants for 1879-80

RESOLUTION—The district has been throughout the year under Mr Macdonald, who has held charge of it since December 1871. His Assistants, Messrs Todd and McCallum, have been continuously on duty The season is described as having been not quite up to the average owing to the rainfall which was plentiful, not having been altogether seasonable The south-west monsoon appears to have been precipitated by the cyclone of the 21st May, to the detriment of the early sowing operations, while July was a month of drought and the young rice crops suffered in consequence But on the whole the season, though perhaps below the average, was not unfavourable A slight decrease amounting to 1½ per cent is shown in the numbers of the rural population The births and deaths that have been registered are respectively at the rate of 21 and 38 per 1,000 The proportion of deaths to births which was much increased by the famine, has now, in the Collector's opinion, regained its normal character He accounts for the excess of deaths over births by a reference, 1st, to the unhealthiness of the district, and, 2nd to the large floating population who make their appearance in the dry season, and among whom the mortality is always great, while, as they leave their families at home, there are no births There is no doubt some force in the second of these two reasons, but the first would not appear to be tenable, as according to it the entire population of the district would disappear in a few years unless it were recruited from without The probability is that the disproportion which the returns show between births and deaths is due in Kanara, as elsewhere, to faulty registration of the former The attendance at dispensaries slightly declined during the year under review a result which is attributed to the healthiness of the season The Collector refers in his 6th paragraph as well as elsewhere to the valuable services rendered by Assistant Surgeon Mackenzie in charge of the Kumta Dispensary Vaccination shows improvement, both under primary operations and re-vaccinations But both the Collector and Commissioner express doubts as to the accuracy of the returns furnished by the vaccinators, and the Collector insists at some length on the necessity that exists for the personal presence and supervision of the Deputy Sanitary Commissioner who has never visited the district Mr Macdonald's remarks may be forwarded to the Sanitary Commissioner with a request that early attention may be paid to the requirements of Kanara in this respect

2 Agricultural stock shows a slight decrease under the heads of cattle, carts ploughs and horses Cattle disease prevailed to some extent during the year 3028 head having been attacked of which 1059 died Prices of labour remained stationary The prices of the principal food grains fell, but they are still higher than they were before the famine No takavi advances were made. The export trade in cotton of the port of Kárwar fell off considerably, owing to the insolvency of the Kárwar Company and of Messrs W Nicol & Co, while that of Kumta shows an increase The trade in local products, such as arecanuts cardamums pepper gall nuts, &c is reported to have been active The fairs at Gokarn and Oolvi were well attended, but no fair was held at Sirsi in 1879-80 Mr Macdonald gives a very interesting sketch in his 14th paragraph of the different classes of people inhabiting the district He is of opinion that they have completely recovered from the effects of the famine

3 The jamábandi settlement was duly completed within the prescribed date in all táluks excepting Yellapur, the delay in which is satisfactorily explained, and excepting also such talukas or portions of táluks as were in the hands of the Survey Department for the introduction of the survey settlement,

which was carried out in parts of Kumta, Sirsi, Yellápur and Supa. The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue	Decrease.	Local Funds.	Increase
	Rs. a p.	Rs a p	Rs a, p	Rs. a. p	Rs a. p.	Rs a p
1878-79	8,46,388 15 5	-	1,10,836 8 0		54,358 14 3	
1879-80	8,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kánara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not cultivate his land. There has been a decrease of Rs. 825 under kumri, due to the vicissitudes of the season. The course which Mr. Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark. Abkári Revenue shows a decrease of Rs. 2,283 under the head of "Spirits and Toddy" and of Rs. 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary. New Abkári arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs. 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been collected, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs. 1,873, due from Kájis' or Pírjádés' ináms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years. Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs. 1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,858. A large number of minors' estates are in the hands of the Collector of Kánara, and Mr. Macdonald pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

the year under review. The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here. Mr. Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara. Government are aware of the very successful issue of Mr. Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains.

6. The result of the decision of the High Court in the Kánara Land Case (Vaikunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government. 694 suits were thus treated in 1878-79 and 280 in the year under review. Two other suits in which Government were concerned and which related to forests have been similarly disposed of in favour of Government during the year, and there is now only one suit pending, which is described as being complicated and of great importance. The Collector has submitted a separate report upon it, which is now under consideration. 40 out of 70 Mámlatdárs' decisions under Bombay Act III. of 1876 were examined by the Collector, and the work is reported to be fairly well done. There has been an increase in crime during the year, the number of offences being 1,871 as against 1,606 in 1878-79, and of persons convicted 1,788 as against 1,551, but the District Magistrate reports the increase to be chiefly under minor heads such as nuisances and hurt. The value of property stolen was Rs. 24,669 as against Rs. 62,420 in the previous year, but the Police recovered only Rs. 7,458 as against Rs. 42,037 in 1878-79, or 30 instead of 67 per cent. 25 Police Pátels hold commissions under Bombay Act VIII. of 1867. The District Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent." Government are glad to observe that the District Jail was frequently visited by 1st Class Magistrates other than the District Magistrate. Copy of Mr. Macdonald's paragraph 52 on the importation of arms and ammunition by sea may be forwarded to the Judicial Department for consideration.

7. One meeting of the District Local Fund Committee was held during the year. The receipts, including an opening credit balance of Rs. 25,017, amounted to Rs. 97,431, while the expenditure was Rs. 77,884, leaving a closing balance of Rs. 19,546. Considerable sums have been spent on roads, bridges, tanks and dharmshálás, both in original works and repairs. An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year. Copy of his remarks and recommendations on the Police Stations may be forwarded to the Public Works Department. The Commissioner states that the periodical report on the municipalities of his division is now in the press and Government will not therefore discuss the subject in this Resolution, but would observe that the Collector has drawn attention to the zeal and energy of Assistant Surgeon Mackenzie, Chairman of the Kumta Municipality. The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,484 in 1873-79 to 5,090 in the year under review. The High School at Kárwár and the Anglo-Vernacular School at Kumta are spoken of as being both excellent institutions. Copy of Mr. Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration. In concluding his report Mr. Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position. It is hoped that Mr. Macdonald will put on record for the future guidance of other officers his views as to the sub-division of the existing tálukas. His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration.

8. Mr. Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwár for two months during the Collector's absence at Goa. But this was unavoidable.

which was carried out in parts of Kumta, Sirsi, Yellápur and Supa. The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue.	Decrease.	Local Funds.	Increase.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1878-79	8,46,388 15 5	.....	1,10,836 8 0		54,356 14 3	
1879-80	8,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kánara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not cultivate his land. *There has been a decrease of Rs. 423 under kumri, due to* the vicissitudes of the season. The course which Mr. Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark. Abkári Revenue shows a decrease of Rs. 2,283 under the head of "Spirits and Toddy" and of Rs. 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary. New Abkári arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs. 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been collected, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs. 1,873, due from Kájis' or Pírjádés' ináms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years. Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs. 1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,853. A large number of *minors' estates are in the hands of the Collector of Kánara, and Mr. Macdonald* pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

he year under review. The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here. Mr. Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara. Government are aware of the very successful issue of Mr. Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains.

6. The result of the decision of the High Court in the Kánara Land Case (Vakunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government. 694 suits were thus treated in 1878-79 and 280 in the year under review. Two other suits in which Government were concerned and which related to forests have been similarly disposed of in favour of Government during the year, and there is now only one suit pending, which is described as being complicated and of great importance. The Collector has submitted a separate report upon it, which is now under consideration. 40 out of 70 Mámlatdárs' decisions under Bombay Act III. of 1876 were examined by the Collector, and the work is reported to be fairly well done. There has been an increase in crime during the year, the number of offences being 1,871 as against 1,606 in 1878-79, and of persons convicted 1,788 as against 1,551, but the District Magistrate reports the increase to be chiefly under minor heads such as nuisances and hurt. The value of property stolen was Rs. 24,669 as against Rs. 62,420 in the previous year, but the Police recovered only Rs. 7,458 as against Rs. 42,037 in 1878-79, or 30 instead of 67 per cent. 25 Police Pátels hold commissions under Bombay Act VIII. of 1867. The District Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent." Government are glad to observe that the District Jail was frequently visited by 1st Class Magistrates other than the District Magistrate. Copy of Mr. Macdonald's paragraph 52 on the importation of arms and ammunition by sea may be forwarded to the Judicial Department for consideration.

7. One meeting of the District Local Fund Committee was held during the year. The receipts, including an opening credit balance of Rs. 25,017, amounted to Rs. 97,431, while the expenditure was Rs. 77,884, leaving a closing balance of Rs. 19,546. Considerable sums have been spent on roads, bridges, tanks and dharmshálás, both in original works and repairs. An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year. Copy of his remarks and recommendations on the subject of Police Stations may be forwarded to the Public Works Department. The Commissioner states that the periodical report on the municipalities of his Division is now in the press and Government will not therefore dwell on the subject in this Resolution, but would observe that the Collector has prominent attention to the zeal and energy of Assistant Surgeon Mackenzie, Chairman of the Kumta Municipality. The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,484 in 1878-79 to 5,090 in the year under review. The High School at Kárwár and the Anglo-Vernacular School at Kumta are spoken of as being both excellent institutions. Copy of Mr. Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration. In concluding his report Mr. Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position. It is hoped that Mr. Macdonald will put on record for the future guidance of other officers his views as to the sub-division of the existing tálukas. His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration.

8. Mr. Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwár for two months during the Collector's absence at Goa. But this was unavoidable.

which was carried out in parts of Kumta, Sirsi, Yelápur and Supa. The results of the settlement are shown below :—

	Land Revenue.	Increase.	Sayar Revenue.	Decrease.	Local Funds	Increase.
	Rs. a. p.	Rs a. p	Rs a. p	Rs. a. p	Rs a. p.	Rs a p.
1878-79	8,46,388 15 5	- -	1,10,836 8 0		54,358 14 3	
1879-80	8,51,362 12 1	4,973 12 8	1,08,565 10 8	2,270 13 4	54,607 6 4	248 8 1

The increase in Land Revenue is due to the introduction of the Survey Settlement. The increase in the assessment is in Kánara gradually collected, and the full amount of the survey rates is not realized until the 3rd or 5th year after the introduction of the settlement, according as the occupant does or does not *cultivate his land. There has been a decrease of Rs. 825 under kumri, due to* the vicissitudes of the season. The course which Mr. Macdonald has, in concert with the Forest Department, pursued in dealing with kumri cultivation has been proper and judicious. Remissions amounting to Rs. 225 have been granted and call for no remark. Abkári Revenue shows a decrease of Rs. 2,283 under the head of "Spirits and Toddy" and of Rs. 209 under "Opium," while there is a rise of Rs. 222 under "Drugs." The fluctuations are ordinary. New Abkári arrangements, which have been considered separately by Government, will come into force in Kánara with the current year. A balance of Rs. 1,062-8-0 (Rs. 1,000 Land Revenue and Rs. 62-8-0 Local Funds) was expected to be outstanding on July 31st. The arrears of former years have been dealt with during the year in a very satisfactory manner. The whole amount (Rs. 75,008) which remained outstanding pending the decision in the Kánara land case has been collected, and with the exception of a sum of Rs. 2,485 due from a minor's estate, which will eventually be realized, and one of Rs. 1,873, due from Kájis' or Pírjádés' ináms, which it may possibly be necessary to remit, there are now no arrears of Land Revenue on account of former years. Rs. 3,204 on account of charges for the erection of boundary marks remain uncollected, but will be shortly realized. 2,745 notices for the collection of the revenue were issued, but distraint was resorted to in only 28 cases.

4. Receipts from Tolls on Provincial roads fell from Rs. 51,223 to Rs. 45,997, while Local Fund Toll receipts rose from Rs. 3,975 to Rs. 4,329. The stagnation in trade accounts for the former. There is a slight falling off (from Rs. 16,428 to Rs. 15,912) in receipts from ferries. The facts and figures which the Collector records concerning forests show a very satisfactory state of things. There has been a large demand for timber and gall-nuts, as well as for miscellaneous forest produce such as honey and soap-pods. The result is an increase of Rs. 1,07,616 in receipts as compared with 1878-79, while expenditure has decreased by Rs. 6,151. Free grants of timber have been liberally made under the special rules which apply to the district. The harmonious relations which exist between the Revenue and Forest officers is one of the most satisfactory features in the administration of the Kánara Collectorate. Receipts from General Stamps show an increase of Rs. 4,055, and from Court Fee Stamps a decrease of Rs.1,001. License Tax Revenue as originally assessed amounted to Rs. 64,866, which was reduced on appeal to Rs. 63,858. A large number of *minors' estates are in the hands of the Collector of Kánara, and* Mr. Macdonald pays his usual careful attention to this branch of his duties.

5. The amount of village and táluka inspection done by the Collector personally was very satisfactory, considering that he was absent for more than two months at Goa during the open season. He examined also all but one of the Sub-Registrars' offices. The destruction of useless records has received attention; but, as pointed out by the Collector, it is advisable to preserve until the completion of the survey settlement a large body of records which would be characterized as useless in other districts, but which may possibly prove valuable at some future time in Kánara. The survey settlement was introduced, as has been already specified in this Resolution (paragraph 3) into portions of 4 tálukas during

the year under review. The settlement in each case was fully considered and reviewed by Government before sanction, and need not be dwelt on here. Mr. Macdonald estimates that at least 5 or 6 years will be required to complete the survey of Kánara. Government are aware of the very successful issue of Mr. Macdonald's experiments in the cultivation of jute, and much regret that they were unable to obtain a further supply of seed from Bengal before the commencement of the rains.

6. The result of the decision of the High Court in the Kánara Land Case (Vaikunta Bápuji *vs.* Government of Bombay) has been that the whole of the 974 suits against Government which were pending two years ago have been struck off the file in the absence of promoters, and decisions passed in favour of Government. 694 suits were thus treated in 1878-79 and 280 in the year under review. Two other suits in which Government were concerned and which related to forests have been similarly disposed of in favour of Government during the year, and there is now only one suit pending, which is described as being complicated and of great importance. The Collector has submitted a separate report upon it, which is now under consideration. 40 out of 70 Mámlatdárs' decisions under Bombay Act III. of 1876 were examined by the Collector, and the work is reported to be fairly well done. There has been an increase in crime during the year, the number of offences being 1,871 as against 1,606 in 1878-79, and of persons convicted 1,788 as against 1,551, but the District Magistrate reports the increase to be chiefly under minor heads such as nuisances and hurt. The value of property stolen was Rs. 24,669 as against Rs. 62,420 in the previous year, but the Police recovered only Rs. 7,458 as against Rs. 42,037 in 1878-79, or 30 instead of 67 per cent. 25 Police Pátels hold commissions under Bombay Act VIII. of 1867. The District Magistrate does not state whether they discharge their duties in a manner satisfactory to him, but says they are "improving to a limited extent." Government are glad to observe that the District Jail was frequently visited by 1st Class Magistrates other than the District Magistrate. Copy of Mr. Macdonald's paragraph 52 on the importation of arms and ammunition by sea may be forwarded to the Judicial Department for consideration.

7. One meeting of the District Local Fund Committee was held during the year. The receipts, including an opening credit balance of Rs. 25,017, amounted to Rs 97,431, while the expenditure was Rs. 77,884, leaving a closing balance of Rs. 19,546. Considerable sums have been spent on roads, bridges, tanks and dharmshálás, both in original works and repairs. An interesting account is given by the Collector of the works, especially roads, that have been carried out during the year. Copy of his remarks and recommendations on the subject of Police Stations may be forwarded to the Public Works Department. The Commissioner states that the periodical report on the municipalities of his Division is now in the press and Government will not therefore dwell on the subject in this Resolution, but would observe that the Collector draws prominent attention to the zeal and energy of Assistant Surgeon Mackenzie as Chairman of the Kumta Municipality. The number of superior schools in the district has not changed, but primary schools have increased from 82 to 94 and the number of scholars attending schools of both descriptions has risen from 4,484 in 1878-79 to 5,090 in the year under review. The High School at Kárwár and the Anglo-Vernachlar School at Kumta are spoken of as being both excellent institutions. Copy of Mr. Macdonald's remarks on low-grade Anglo-Vernacular schools, in which the Commissioner concurs, may be forwarded to the Educational Department for consideration. In concluding his report Mr. Macdonald enters upon a short review of the progress which the Kánara district has made during his nine years' tenure of the office of Collector, and Government gladly avail themselves of the opportunity to thank him for his long and valuable services in that position. It is hoped that Mr. Macdonald will put on record for the future guidance of other officers his views as to the sub-division of the existing tálukas. His remarks on the subject of the railway to Kárwár may be transferred to the Public Works Department for consideration.

8. Mr. Todd, First Assistant Collector, has submitted a clear and concise report and has discharged his duties during the year with much efficiency. His village inspection in the Honávar Táluka suffered by his detention in Kárwár for two months during the Collector's absence at Goa. But this was unavoidable.

The report of Mr. E. McCallum, Second Assistant Collector, is somewhat meagre, but he is spoken of in high terms both by the Collector and Commissioner for the manner in which he has worked during the year. He has attended carefully to standing orders and has shown zeal and energy in the supervision of his charge. Government note that in three out of five appeals from Mr. McCallum as a Magistrate his decisions were reversed.
